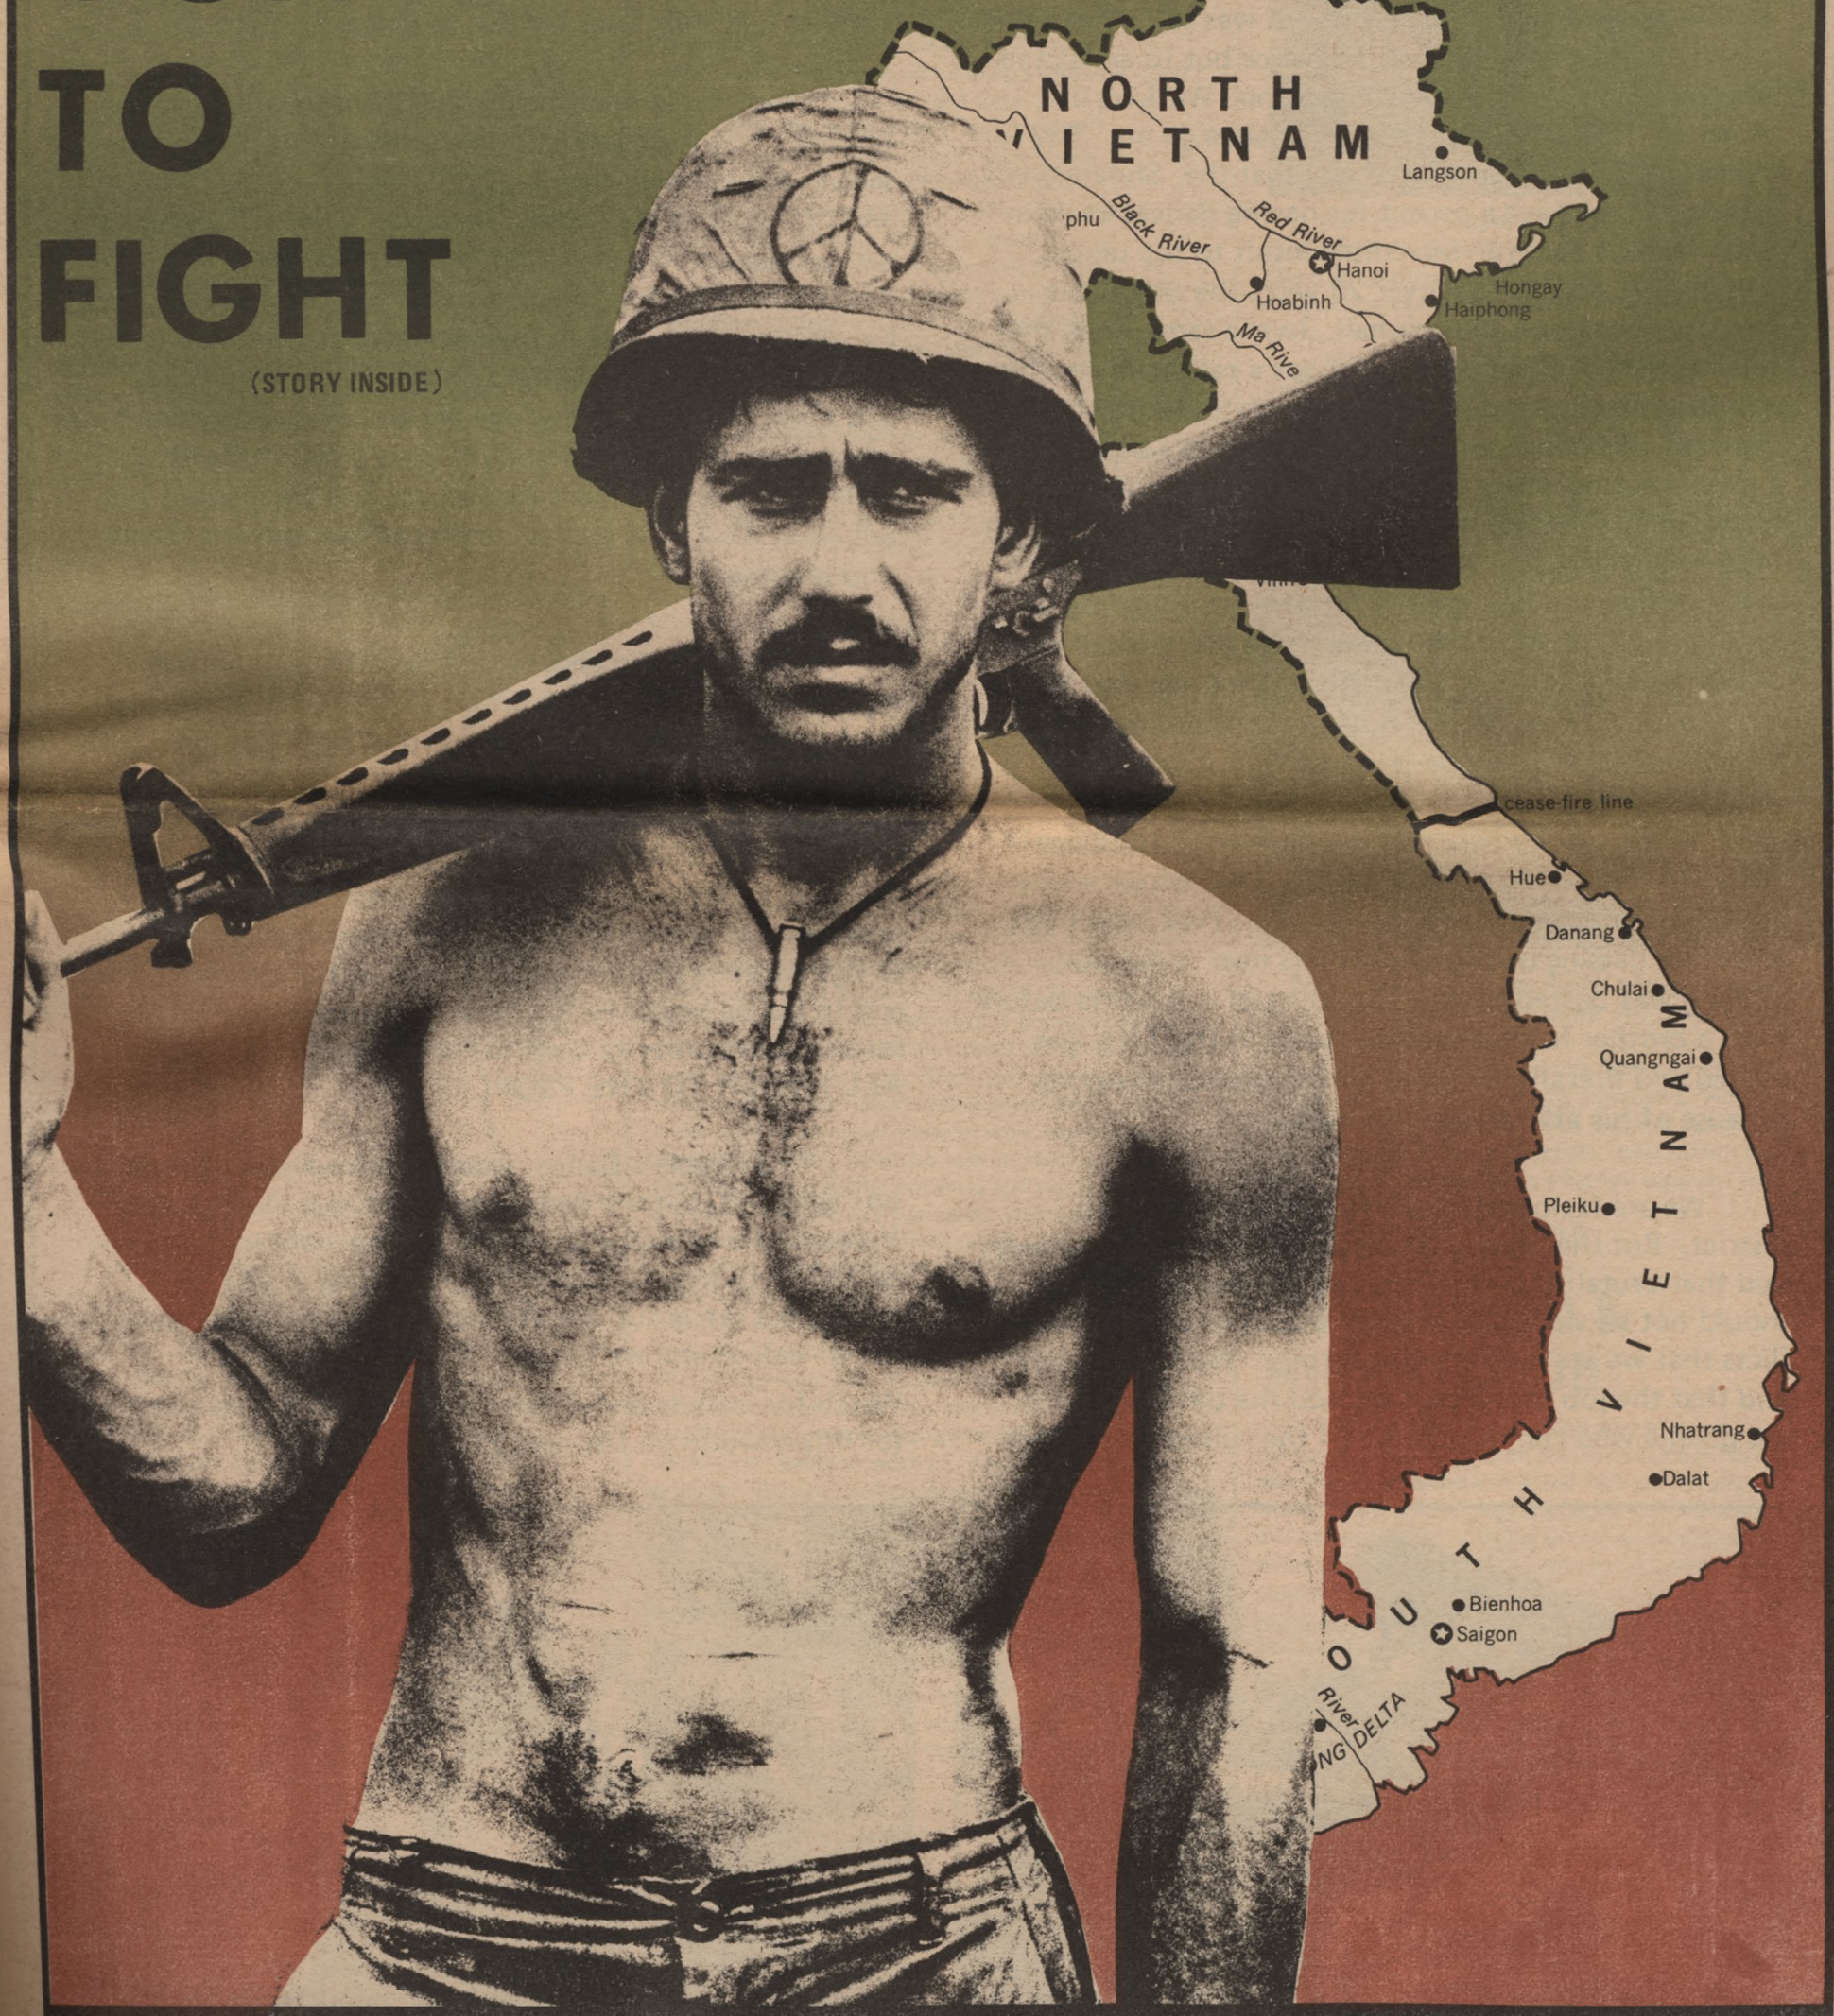
OUR BROTHERS REFUSE TO FIGHT

(STORY INSIDE)



END THE WAR NOW

WHAT MAKES THE SHAKESPEARE PIGS SO UPTIGHT?

In the last issue of Rising Up Angry, we ran an article about People's Dances, laying out the absurd but very real possibility that these dances would become an illegal event someday. This week, Sgt. Connor of the 14th district, walked into the Shoemaker's Union Hall (where the next People's Dance was to be held) and threatened not only to bust the dance but to arrest the officers of the local of the United Shoe Workers of America, AFL-CIO, if they let the dance go on. The, so-called, legal excuse they used was that the Shoemaker's Union did not have a permit for having dances in their hall. Besides being an incredible insult to the union, it is absurd, because for over 20 years the union has been having dances in their hall. In the same week that this happened, Rising Up Angry got a call from another hall (the Wonderland Ballroom, which is also in the 14th district). We had reserved this hall, 2 weeks before, for a mass meeting where we were going to announce the formation of Friends of Angry, a new mass organization that we are starting. We considered this a very important meeting and had spent a lot of time preparing for it. Three days before the meeting, we got the call canceling our reservation. The 14th district pigs had threatened the owner of the ballroom with "building code violations" if he let us use the hall.

In the same week, two people were busted(again in the 14 district) for selling newspapers, which is not an illegal act - even in this fascist city. Two weeks ago, a brother passing out Angry leaflets near Kedvale Park, was busted by the 14th district . A while before that, a brother from a neighborhood in the 14th was busted and literally tortured by the Shakespeare pigs because of his affiliation with Angry.

We are facing political repression in the 14th district. But this comes as no surprise. Angry has always said that brutality by the pigs and political repression should not be viewed as isolated events or personal conflicts that we are having with the pigs. We have always said that the job of the pigs is to do the dirty work for the people who run this country - the ruling class. And as times get rougher - with jobs being more scarce, welfare being cut, the war continuing - people are beginning to raise more and more questions. They are beginning to feel angry. And they are also beginning to look to the revolution - understanding that only by changing the system, will their lives be able to change for the good.

And this is what makes the Shakespeare pigs so uptight. For their job is to be against change, to maintain things the way they are. If they can do this with an "officer friendly" smile, then that's fine. If they can't, they will try anything - threats, arrests and even murder if necessary - to try to stop the revolution. They are already doing this to revolutionary organizations, but as the economy gets tighter it is also becoming more and more true for the average person. Especially for the average person who doesn't have a lot of money. Walk the streets of the 14th district and the people will tell you. There are endless stories of har ssment, busts, and beatings.

Angry has also always said that the way to deal with this is to stand up - to fight back. And that is what we want to do. We are asking people who live in the 14th district or who have had any contact with the 14th district pigs, to call us. We would like to begin to document cases of brutality, illegal arrests, rip-offs, etc. Not only will we help people fight these cases thru our legal program, but we will also use this information to begin to fight against the Shakespeare pigs; to fight for an end to police brutality, political repression and the right for the community to control the police.
ALL POWER TO THE PEOPLE!

This People's Dance, scheduled for November 6th, was canceled, but the dances will continue in the future. If you know of a church or hall that we can use for a dance, let us know. But more important, if you want to set up a rap group about problems in the neighborhood - call us and we'll help.

Watch for leaflets and check the next issue of the paper for information on the next People's Dance!

PEOPLE'S GRAPEVINE

2 BROTHERS MAIMED BY PIGS NEGLECT

A brother from Austin had his hand crushed by a machine on his job. There were no safety holds on the machine and a 600 pound part of the machine went past its correct stopping position and landed on the brother's hand. This brother's hand has been in a banana splint for over three months.

When I went to the hospital to visit him I met another guy in the next bed. He told me what happened to him. Last summer (summer of 1970) he was on the back of a friend's motorcycle going north on Central Avenue. At Madison & Central a pig squad car doing over sixty miles and hour ran into them from the side. The squad car had no siren or lights on and was running a red light at 60 miles an hour! When the squad car hit them the hospitalized brother was thrown through the air about sixety feet until he hit a newstand on the fly. The brother that was driving only had a few bruises but the one on the back really got messed up. His legs were broken and twisted and he has spent most of his time since then in the hospital.

This brother is suing the city. His hospital bills are thousands and thousands of dollars. Even though the police investigation showed that the siren and lights were defective the city is trying to say the police were not at fault! The brother has had three operations and as this is being written he is in a lot of pain from the third one. His legs are not healing well.

These two brothers were injured because the people do not have the power. We do not now have the power to insist on safe working conditions. We do not now have the power to control the police, the highly paid mercenaries of the rich. Now some people may rap some brainwashed jive about how a pig is an individual just like us etc. What do you think when you see that blue light? Do you think here comes a nice guy "serving and protecting" the people? Or do you think --- here comes a mad dog, with a .38 and a license to kill, looking for an excuse to brutalize a brother or sister, a mad dog thief trying to make a dime off anyone in a car?!

We must seize control of our lives from the pigs --- the factory owner pigs, the blueboy pigs and the pig politicians. To do this we must have unity --- we must realize that it's not just you or me that has "problems" with the landlord, or with the boss at work or the pigs on the street. It's all of us!

OHIO & PAULINA

2 brothers from Ohio & Paulina were walking down the street and they were hungry and broke. We'll call them Bob and Bill. They saw two men on the street ahead of them so Bill (about 5' 3") went up and asked them for a quarter. The two men started beating on Bill and when Bob saw this he rushed up and pushed them off and they split through gangways to the next street.

They're just standing there when three men come up to them and tell them to come around to the bar on the corner. The three men said they just wanted to talk with them. So they went over to the bar and they snatch little Bill inside and started beating him without mercy. Bob saw this and since there were about eight men on Bill he went looking for a board, anything to use. He couldn't find one so he came back by the bar and some guy puts a .38 in his face and says "don't move."

Bob pulled a knife out of his boot and told the guy to drop the .38 or he'd cut his arm off. Then the guy pulls a badge! The pigs beat Bob and Bill for a couple of minutes.

Later on the tavern owner (one of the two men Bill asked for a quarter) was sitting on a bench in the pig station. He was so drunk he fell off the bench, hit his head on the floor and died.

Bob and Bill have been charged with battery, attempted robbery, aggravated assault and resisting arrest. All these brothers did was aske someone for a quarter. These charges are pig lies trying to cover up the brutal and sadistic nature of the pigs and their lackey drinking partners.

POWER TO THE PEOPLE!

CAPITALISM IS A HEALTH AND SAFETY HAZARD

All of us who work in factories around the city understand how unsafe they are. We know this from being injured and seeing our co-workers injured. We also know that the companies won't improve the safety conditions in the plants either. The reason these million dollar concerns won't improve the working conditions is because they don't really care whether or not we get injured. They only care about increasing production and holding down costs. And to make our factory a safe place to work would cost them extra bread. Since we have to make money to feed, clothe and shelter ourselves and our family we are forced to work in these plants and we've learned to accept bad working conditions as a way of life.

Well, the federal government has just released some figures that show how unsafe it really is to work a job. In a survey over the first 5 months of this year, the department of labor found that only 21% of the businesses they checked were free of health and safety violations. That means that 4 out of 5 factories they checked had violations; 4 out of 5 factories were unsafe to work in. And you know that

the standards set up by the federal government are going to be in favor of the company so you can imagine how unsafe the plant had to be to be called unsafe by the government!

If we ever want to work in a safe place we're going to have to organize to demand the companies improve working conditions. I know this one warehouse where all the workers walked out and wouldn't come back to work until the company promised to improve the safety conditions. That's the first step towards power to the people. And the government figures point out very clearly that bad health and safety conditions aren't problems just on your job or mine—rather those are the conditions of life for the millions of working people in this country. We've got to move as a united working class to rid ourselves of these conditions.

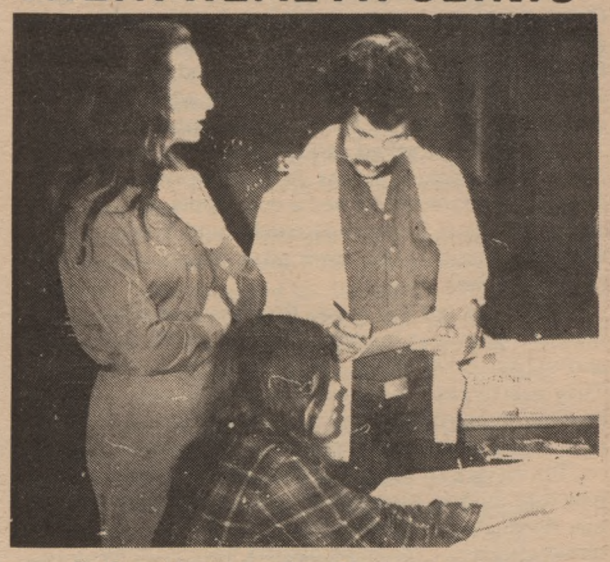
THE PEOPLE GET TOGETHER TO SUPPORT THEIR HEALTH CLINIC



On Saturday night, Oct. 30, there was a benefit dance at the Fritzi Englestein Free Peoples' Health Clinic in Lakeview to raise money in order to buy medical supplies for the people. There was good music, food and a lot of spirit.

About 200 people came and made the night into a beautiful thing.

The bands—Peak, Train, and the All Steel Band provided the music and Rapid Transit, the guerilla theater, performed.

We say Right On! to the People who get together to support their free health center and create a good spirit.

The Center gives good free health care to the people, all the work is done by volunteers. All donations are welcome. We need: clean-up supplies, furniture (chairs, desks, couches), construction materials (paint, lumber, nails, electrical supplies) and of course medical supplies.
ALL POWER TO THE PEOPLE

MONTICELLO & WRIGHTWOOD

The pigs have been picking a lot of us up, telling us we can't stand on any corners from Pulaski and Wrightwood to Central Park and Wrightwood. They've been slapping people around and this one pig, Busse, is trying to out do his fellow swine as local enemy of the people no.1, and the biggest fool around. They threaten to really get heavy and beat us up. They already did a job on our brother Teddy Mosier. The pigs actions are helping us to understand clearly what they're all about.

THE BEAT OF THE PE

MINE WORKERS RANSACK SCAB MINES

About 500 striking mineworkers in Central Ohio burned equipment, overturned coal trucks and exchanged gunfire with deputy sheriffs. Because there were so many strikers and they were armed the sheriff and "everyone who wears a badge" couldn't make any arrests.

The miners attacked various non-union (scab) mines in the region. At the James Brothers Coal Co. the strikers burned a coal tipple, a weight building, 2 company trucks, and 3 cars. When the sheriffs came there was a shootout, but no one was injured.

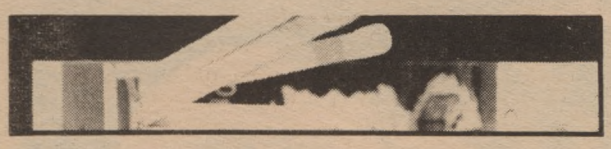
After they left the James Brothers Coal Co., the striking miners formed a caravan of 100 cars and trucks and attacked at least 5 other mines. They overturned trucks along the roads and blocked more roads with coal. The strikers didn't back down to the pigs--they shot it out.

The history of the miners' struggles to organize into unions, throughout Ohio, West Virginia, Kentucky, and other mining states is a bloody history. The mine owners have brutally suppressed all attempts by the workers to organize for better working conditions, more pay, and fringe benefits. The only alternatives left open to the miners have been to retaliate for the mine owners' violence with their own violence.

And the violence and brutality of the mineowners comes not only in the way they suppress union activities and use the pigs as their own personal strikebreakers (although there is plenty of that), but the worst violence the mineworkers face is the day-to-day "occupational hazards". What we mean is the horrible working conditions in the mines, the all-too-frequent loss of limbs and lives because the mineowners won't put out the money to make the mines safe to work in. And, of course, there's the almost sure prospect that all of the miners will get the crippling "black lung disease". In just July and August 37 men died in U.S. coal mines.

So, when miners out on strike destroy the property of the non-union mines, that violence is very small compared with the violence these mineworkers face day in and day out. The violence of the striking miners is totally just! And, when working people strike out for a decent life, whether they do it with a picket line, a gun, or a torch, we should all show our support. The struggle for a better life of the miners in Ohio is the same as our struggle for a better life here in Chicago.

To our brothers and sisters in Ohio, Rising Up Angry says RIGHT ON!



STOCKADE BURNED DOWN

More than 100 prisoners in a stockade at Fort Gordan, Georgia, burned the place to the ground on October 26th. A brother, Jesse Simmons, had requested a home parole but his request was denied by the pigs on the base. Jesse's brothers really backed him up on this one. The place was completely "totaled".

ME & 3

This poem was brought to Angry from a young revolutionary brother who lives on the northwest side. We know him as John (FF) Midnite. The FF stands for Fight Fascism. We hope he writes a lot more, and that other sisters and brothers will get their thoughts down and get them in so we can get them around to give inspiration to other people around the city.

NIXON'S CROCODILE TEARS

In the president's health message to the people, Nixon cried because "50% of poor children are not even immunized (given their baby shots) against common childhood diseases." What has Nixon done to change this and make things better?

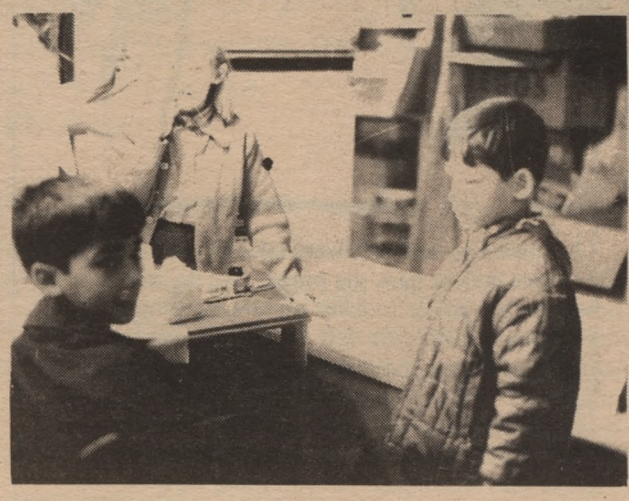
1. He vetoed every bill to improve the people's health care.
2. He eliminated all national funds for children's dental care.
3. He cut the $75 million approved by Congress for immunizations down to $2 million (and most of that isn't used for the people). His lackeys said the money wasn't needed.
4. He cut down the medical services that the welfare green card used to provide - he says people use the doctor too much and hustle welfare for too much medicine.

This year, the number of cases of measles, diptheria and polio have all gone up. (measles: 25,000 cases in 1969 -- 60 to 80,000 cases in 1971). Many people in the government say this is due to ignorant parents and doctors. They make us ashamed when our kids get sick

Nixon said he thought public health was the government's responsibility (he thinks so - we know so). But then the two-faced monster cuts $73 million out of the government's responsibility. And if that isn't enough, government officials add insult to injury by saying it's the fault of ignorant parents and doctors when children get sick. And in this land of "you get what you pay for" - the latest profit-making government supported program is a plan to have people buy health insurance (soon this will be a law). It will be even harder to get a 50cent shot for your baby. Who does Nixon think he's kidding?

We blame Murray Brown (head of the Chicago Board of Health) for the lack of good immunization programs for the people of Chicago. But, we also know that Brown is just a lackey, a bungling administrator, who doesn't really control the money that would provide these programs. All he can say to Nixon's "new health plan" is "yes,sir!"

So, if your children haven't had their baby shots, you are welcome to the Fritzie Englestein Free People's Health Center. The Children's Free Immunization Program at the center, will serve to



keep the children in good health. The dates to bring your children to the Center are on Saturday mornings - November 6, November 20 and December 4, between 10:00 am and 12:00 noon at 2747 N. Wilton Avenue (in the Church across from the Diversey 'L' stop). A nurse will check all the

children's past baby shots and their present health before the shots will be given. All children can get tests for common infections and a simple blood test to check for possible anemia. Call 348-8578 for more information.

HEALTH CARE IS A HUMAN RIGHT!

OPLE

PBC

The pig harrassment around PBC has been on the increase lately as more brothers and sisters have been arrested. A few weeks back on a Tuesday night, three brothers were snatched by the pigs for just walking past the corner of Paulina & Barry. A fourth brother was incarcerated when the pigs shouted that's "three down". The brother shouted back "off the pig". The police officers making the arrests is Officer Hippert, star No. 60654. This fool has made many statements that he runs PBC., and that he controls the corner. He constantly rants and raves that it is his turf and that we are trespassing on it. We know that is bullshit of the highest order.

It is the people who run it and not one individual, especially a pig.

The next night Hippert again came around and busted three more brothers for being on the corner.

Hippert heightened the contradiction between the people and the pigs so that when, about a week later, some pigs tried to snatch a brother who was standing in front of his own house, he was alert and managed to escape their clutches. It was broad daylight and he was rapping to some friends and helping his mother with a rummage sale she was having. The brother promptly told the pigs that he could stand in front of his own house as long as he wanted and that he didn't have to move—he knew his rights. The pigs got furious at him because they knew he was right and they can't dig anyone telling them that they are wrong. So the pigs rushed at him and tried to grab him. The brothers, using the slogan that "the best defense was a good offense" attacked the officers with his fists. The pigs quickly let go, and the brother split--freeing himself.

Sisters and brothers of all neighborhoods must start freeing themselves from all oppression by standing up to these fascists.

NEXT PEOPLE'S DANCE WILL BE HELD NOVEMBER 27th, SATURDAY NITE

Time and place will be announced — for further information, call RUA at 472 - 1791

FULLERTON & PULASKI

We've got a new champion "people hater" around the neighborhood. He's even worse than Socco (the former champion). This pig's name is Keating - what a dog. He busts and harasses people just to get his kicks. He wouldn't dare get caught without his .45 (which he carries on his left side, backward) or his big black stick (extra-large). Even the sergeant at the 14th district says he's crazy. He's made 6 busts already this week. STOP THE PIG!

FBI LET'S PILOT GET MURDERED

Brent Q. Downs made his living as a pilot for chartered planes. On October 4th, he was hired by George M. Giffe,Jr., and just before takeoff Giffe pulled a .45 automatic on Downs and demanded that he fly the passengers (Giffe, his ex-wife, and a friend of Giffe's, Bobby Wallace) to the Bahama's.

Brent Downs didn't want anyone killed so he agreed to fly them to the Bahama's, but he needed to stop to refuel in Jacksonville, Florida. He radioed ahead to the Jacksonville International Airport, explained the situation, and he was told he could land and refuel without interference and that no one's life would be endangered. That seemed like the logical thing to do.

But when Downs landed and asked where the fuel truck was, the FBI came on the radio and said there would be no fuel. George Giffe shot Downs, himself, and his ex-wife when the FBI opened fire on the plane.

Just recently the conversation between Brent Downs and the FBI has been released and the FBI's total disregard for human life, specifically the life of Brent Downs, an innocent pilot, comes across very clearly. Check out this conversation:

PILOT:...This is the captain speaking. We're going to cut the engines and we're gonna need some fuel, but I request that everyone stay away.

TOWER: 58 November. Advise when your engines have been cut. 58 November?

PILOT: This is 58 November. Uh, this gentleman has about 12.5 pounds of plastic explosives back here and (pause), us, I got no (pause) yen to join it right now; so, I would please expr, us, appreciate it if you would stay away from this airplane.

TOWER: That's a roger, 58 November. Are your engines cut?
PILOT: Negative.
TOWER: Stand by.
PILOT: Where's the fuel truck?
TOWER: This is the FBI. There will be no fuel. Repeat. There will be no fuel. There will be no starter (which Downs had also requested to guarantee engine restarting). Have you cut your engines?
(Pause)
PILOT: Uh (gasp), look, I don't think think this fellow's kiddin'---I wish you'd get the fuel truck out here.
TOWER:58 November. There will be no fuel. I repeat. There will be no fuel.
PILOT: This is 58 November. You are endangering lives by doing this, and, us, we have no other choice but to go along, and, uh, uh, for the sake of some lives we request some fuel out here, please.
(Pause)
TOWER: 58 November. What is the status of your passengers?
PILOT: Ah, us, well, they're OK, if that's what you mean.
TOWER: Are they monitoring this conversation?
PILOT: Yes, they are.
TOWER: Do you have two passengers aboard?

(Pause)
TOWER: 58 November. What's your present fuel status on that aircraft?
PILOT: We're down to about 30 minutes.
TOWER: 58 November. The decision will be no fuel for that aircraft. No starter. Run it out, any way you want. Passengers, if you are listening--the only alternative in this aircraft is to depart the aircraft, to depart the aircraft.

After this conversation the shooting began. When it was all over and it was learned that Downs had been shot and that the FBI didn't do any good at all, someone in the tower said, "You can't win 'em all."

(continued top next column)

FBI (cont.)

Now, how many more can we afford to loose When the FBI moves, it costs innocent people their lives. Who could judge whether or not Griffe was serious--Downs, who was with him, or the FBI, who had no idea what was going on? Downs was concerned that not only his own life be saved, but that no one get shot. Yet the FBI deceived him and set up his murder. Just what was it the FBI was trying to do? Obviously they weren't trying to save the pilot's life--he told them that.

It is pretty clear from this one instance (and thousands more) that the FBI (and all police agencies) have no regard for human life. They do not perform in a way that serves and protects the people. The police forces operate on the principle that property rights are more important than human rights.

Until the people, people like Brent Downs, people like you and me, gain control over these maniacs called FBI agents and police officers, more commonly referred to as pigs, our lives will constantly be in danger. We have to move as a people to demand that police brutality and that human life come before property rights, that police agents be punished for crimes they commit in the name of law and order, and that ultimately the police be under the direct control of the people.

ALL POWER TO THE PEOPLE!

ROSELAND

The fact that the pigs have little or no regard for the well-being of the people is not restricted to any given district in Chicago, or anywhere else in this country, for that matter. The Mod Shop, a progressive head shop in the far south community of Roseland was victim of one of the most recent attacks by these dogs who "serve and protect".

On Wednesday, Oct. 21, at about 4:30 in the afternoon, stormtroopers from the police station barged into the store, and presented a search warrant for dope. As one brother who was there described it, "Not only did they come in like gangbusters, but they put everybody up against the wall and wouldn't let anyone move. They harassed everybody particularly the sisters. Two of them came in with their guns pulled."

The pigs aggressively insulted the brothers and sisters (customers included) with derogatory anti-youth remarks (filthy long hairs, etc.) while they conducted their search and destroy mission. They never found the stray joint or two that they expected, but they did manage to make a total mess of the place doing considerable damage to some of the clothing. After trashing the store to their satisfaction, the pigs finally split.

The people at the Mod Shop say they will file suit in an attempt to get their bread back for the damages.

It is no "accident" that the Mod Shop was raided. For some time now, it has been a place where young people could get together without being hassled or hussled into buying something. Unlike head shops owned by capitalist vultures, the people who run the Mod Shop are not worried about "undesirables" scaring away business. This is why the pigs said "We're finally going to get you", when they came in.

THE NEW WORLD IS

28 PIGS BEAT A 17 YEAR OLD TO DEATH

On October 16th, 15 year old George Barnes was driving his father's truck along a country road just outside Memphis, Tennessee. Riding with him were 14 year old Calvin McKissack and 17 year old Elton Hayes. They came to a hill and decided to see if they could reach the top before the cars coming down the hill could reach the bottom. As they were going up the hill, George spotted flashing lights behind them. He pulled on the hand brake so they wouldn't roll over and the truck slid halfway into a ditch and stopped. The two pigs chasing them had called for reinforcements and 28 pigs in various cars came on the scene. (23 city pigs and 5 Shelby County pigs). As Calvin said, "There wasn't any wreck. We just slid into the ditch. Nobody was hurt until the police officers got there."

All 28 pigs began beating on the 3 brothers. Later, George described the horror: "I could see policemen on their knees in the ditch, swinging their sticks up in the air. Then they knocked me down and started kicking me in the side and in the stomach. I never heard anything from Calvin or Elton. All I could hear was cops calling us everything but a child of God..."

"When I got up," George continued, "They were still swinging the sticks; but I didn't know on who.

They carried somebody out of the ditch and put them in the sheriff's car. They had beaten Elton Hayes to death. His body was so brutalized he was beyond recognition."

Twenty-eight pigs beat a 17 year old brother to death!

This viscious murder, committed by 28 full grown men with twisted, sick minds is just one example of how deep racism is in this corrupt society. And when we say the government approves of this racism we don't have to say it lightly. These men were hired by the government. And these men, since they committed this murder, have not even been fired by the government--they have been given a leave of absence--with pay. They should all be brought to trial for murder, but instead they have been given paid vacations.

Not only had the pigs beaten Elton to death, but they had the arrogance to lie about it. They recorded his murder on an official police report as, "a traffic fatality".

The righteous brothers and sisters of Memphis could not (and should not) contain their outrage. After a memorial service for Elton on Saturday, October 19th, some people chose to take action against their oppressors, instead of "sending flowers". Some places were burned to the ground.

The next night, again, the racist, inhuman pigs committed murder in the Black community. Two pigs, supposedly checking out a fire-bombing were racing through the streets and when 3 year old Robert Reed, Jr. crossed their path, the pigs ran him over. He is dead. They said they were sorry.

This unbearable situation led to more fires being set. A curfew was imposed by the Mayor but masses of Black people ignored it. The Mayor tried everything to stop the peoples' uprising but the people decided to stop it themselves. They are waiting for the next city council meeting to demand Elton Hayes' murderers be arrested. The people will decide the next move.

These racist murders of brother Elton and little 3 year old brother Robert are not an "incident". They are common practice. And it doesn't only happen in the south. It is common in Chicago, New York, California--all over the country. And it doesn't stop inside the borders of the U.S. In Vietnam, instead of hiring fascist fools who beat people to death with clubs or run them over with cars, the government hires pilots to drop bombs on people. And we know we have alot more in common with our Black, Latin, and Asian brothers and sisters than with any of those sick, inhuman, murdering, money hungry pigs in government offices who say they represent the "American people". We stand with the righteous people of Mempnis. We love the people. And we say, "All Power to the People!"

POWER TO THE PAPER SELLERS! BROTHER KEEPS THE SPIRIT

The other day, I was selling papers and all of a sudden this pig comes wobbling over to me and says "It's against the law to peddle those papers in a business district." So I say, "Well, I think you're wrong about that --- but even if there was such a law, I don't think its right, anyway." So I kept on selling papers.

A little later a pig that wears a smudgy white shirt (he looked like he works in the cafeteria), I think he's the commander --- he comes up to me and says "now get this straight, the law says you can't go in the street and obstruct traffic (dig him --- standing in the street and me on the curb, while he's telling me this) but you can sell all you want on the sidewalk."

I told him that I was glad he had it straight, and that he should straighten out his partner. And that I would naturally strive to prevent a traffice accident among the people. He grunted and left.

As anyone who has been spreading the revolutionary news knows, this kind of harassment (designed to stop our progress) goes on a lot lately. Let it be known that if they lay a hand on one of us --- we'll return with a hundred!! Two, three many paper sellers! All Power to the People!

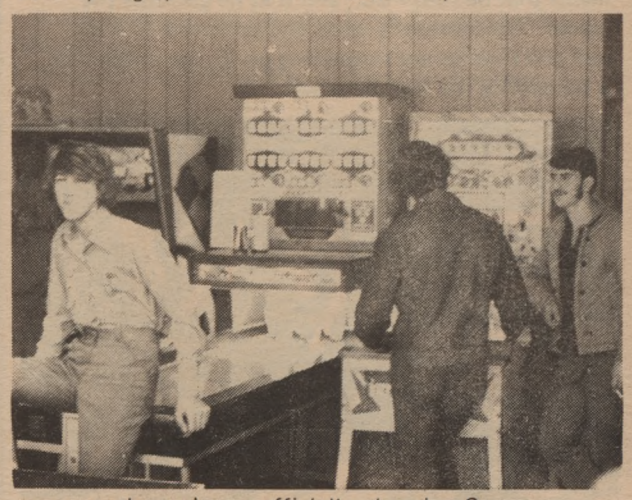
SISTER GETS SUPPORT

I went up to Lincoln and Belmont to sell some papers about a week ago. I'd hardly started when this cop came up to me and pulled out a zeroxed copy of some old law about how you couldn't peddle in that area without a license. I was telling him that selling papers isn't legally considered peddling, when a sister and brother came along, checked out the scene, walked up to the cop and picked up a Rising Up Angry. They held it under the pigs nose and said, "Why are you bothering her? What's wrong with this paper? It's a beautiful paper." The pig oinked and started acting nice, "It's my job.", etc. When the brother and sister left they said, "Keep selling the paper." The pig waited til they had split and said, "If you do, I'll put you in jail - maybe we'll make a test case out of it." (That means he'd take it to court to see if the law applies, and it doesn't). I just split to sell across the street.

KEDVALE PARK

About a month ago things started getting worse around Kedvale Park. As usual, the pigs were at it again--busting people so they would have something to do.

They'd come to the park with a half a dozen pig mobiles and give everyone a hard time. They noticed they would bust people one night and the people would be at the park again the next night. So they dug up one of their tricks. They told



everyone the park was officially closed at 8pm one night and everyone under 18 would have to beat it.

So everyone left and came back later.

Here are just a few things the pigs have done to the people who pay them supposedly for "protection".

Two brothers were riding a motorcycle and the pigs started chasing them for speeding. The bike went out of control and the driver was killed. The rider, who was injured, got a ticket from the blood thirsty pig for something like "contributing for an unlawful act".

One day, at about 1 pm, the pigs attacked the park just to hassle the people standing out in front. When one brother cutout, a pig drew his gun and shot at him--he said it was a warning shot. They took the brothers in and when a brother asked what they were being taken in for the pig said for "existing"! They were released later when the pigs got bored with the game and went looking for something else to do.

Another time these two brothers were just cruising around when two men pulled next to them and said pull over. The brothers asked who they were. They said "police", so the brothers stopped the car and asked for the pigs' identification. The brother asked this because he had been fooled before. The pig responded "I'll give you I.D.'s upside your head, punk!" So the brothers started driving away, but one pig jumped into the passenger's side and started to beat one brother. Then he grabbed his gun and ordered the driver to stop. As he did his door opened and when he turned to look the other pig gave him a foot in the mouth and knocked out two teeth. After they did a few numbers on the brothers, one pig cut out, the other told the brothers they were going to jail. The brothers who had been driving said "if you guys are cops I'm taking you to court." The pig then said, "Oh, no, I'm taking you to court tomorrow morning."

They went to court and the brothers told the judge what happened and the judge said, "Where is the cop who kicked your teeth out?" The brothers said he wasn't there, and the judge said oh, so he's not here now, like if the brothers' story didn't mean anything. So they were fined for resisting arrest.

These kind of things keep on going on around us every day and they will get worse unless people will get together and come up with a solution. We must stop the pig and to do this we must use force. For instance, if you don't hit it, it will not fall. We must protect our loved ones and think of our future if we're going to be around alot longer.

POWER TO THE PEOPL

OURS TO BUILD

LAKEVIEW HIGH SCHOOL - ASHLAND & IRVING PARK

The police have been getting heavier and heavier around Lakeview High School, where we hang out. They come around and constantly chase and harass brothers and sisters to keep them off of the streets. The pigs don't dig us getting together to talk, because many of us are talking about how the real enemy is the pigs, not other brothers and sisters.

That's exactly what happened a few Friday nights back. It was a warm night and alot of people were out. Brothers and sisters were in high spirits because the weekend was beginning and for a few days they didn't have to worry about school hassles. Everything was cool and people were having a good time. Around 10pm two pigs snuck up on us. The pigs, Lagauto and Gothe, quickly nabbed all the brothers and busted them. They oinked all kinds of noise about how we don't have a right to be on the streets, that we can't get together, and how they are going to keep on harassing and busting people to enforce their will.

When we got down to the pig station we all got charged with disorderly conduct, even though the pigs made more noise with their irrational shouting than we made all night.

It's clear that the charges were brought against the wrong people. People have a right to get together and talk. The pigs are the criminals because of their constant harassment in our community. They are the ones who are guilty of disorderly conduct. They come from outside of the community and disrupt our lives. The people must see that the reall motto of the Chicago police is "harass and kill."

SHREWD SKYJACK

The enemy --- the ruling class and the government that fronts for it --- trys to come on like superman. They claim to be invincible, capable of taking care of everything, able to handle all problems and all challenges to its authoritarian power.

Remember what a big deal fascist Nixon made about skyjackings and how the government would stop them in the future. Well, he was fronting off, because pigs and weapons are not as powerful as the people.

Already this year there have been 9 skyjackings to Cuba. The most recent one was a jet bound for Puerto Rico. The newsbroadcast that there were 5 men with guns- 1 skyjacker, 3 skymarshalls and one FBI agent.

The people relate to this victory because it attacks the rulers' pretense of power. Most of all it gives inspiration and sets and example for future actions to be taken by the people in our struggle for freedom and justice.

BITTERCREEK - A PEOPLE'S BAND

Bittercreek, a southside band that played for a RUA Peoples' Dance, is becoming a together group of brothers as well as a together group of musicians. They are Lee, the newest member. Jerry, Joe, Bob, and Jerry (all who have been jamming 4-6 years). Most of them came from St. Rita's or Bogan.

"We all dig playing. And we play so we can hear what we like to hear--country rock, but the money is in playing to the 'lounge set'. Our agent dropped us because he thought we weren't making enough money for the lounges. Another agent was saying he dug us but that we jammed too long."

Anyone into the musical scene knows how the commercial ($$$ hungry) needs and the agents have been running it. If you want to play, then you play where they can make money off your music and sweat. You play what that crowd of people (who now is the middle age set) has been taught to expect in music. And you play as long as they say. The lounge manager and the agent are the judges, not the people.

"We do acoustics as well as electric steel so people can enjoy the words and tunes. You have to play how you are, how you feel. That's why we've even gotten into writing our own music."

The Peoples' Dances are for all the people--so we can all dig the jams. So sisters and brothers can share their music with us. Thank you Bittercreek, and all other music makers from the neighborhoods.

FROM A BROTHER IN LOGAN SQUARE

I've asked many brothers and sisters why they hang around Logan Square and usually the reply is, "Just to rap." Most raps center around drugs, problems with parents, or disgust with landlords, pigs, etc. It helps to dig into problems to find answers and gather opinions, but usually that's where it ends. People hung up on their own problems and form the attitude of "Help me, but hell with your problem."

A lot of this is due to pig harassment. People group together for raps more at night than the day usually because everything is closed and the sidewalk is pulled in at dusk so there isn't much else to do. Nothing is happening at home. Fifteen minutes was the time limit on the coke they just drank so now's the time to hang together around the square.

The police don't help matters by running everyone off the street. Probably were some constructive ideas being exchanged. The pigs first impression is to check for needle marks, see if joints are being passed instead of ideas. If you refuse to move? Well its possible that our whole country could be another Attica.

Who can really blame people when their basic freedoms are minimized? Life cannot last at a stand--still. It must have room for each individual to grow and indure.

The police are definitely organized. The way they express themselves, they should license themselves as comedians. (It is our way or else. "We serve and protect ourselves first ") Some people today have lost their concept. They can't seem to pull themselves together as "ONE". They lose the perspective of joining their brother or sister to work together and stray from the brotherhood--sisterhood they need.

The police cause people to break apart and hoof it alone. We can't release our tensions. We can't be free--minded. It's like you have to lock yourself in a cage and close your mind. You can't open your mind to anything above an ape' s mentality. People are told to conform to the system and to like it and accept it whether they agree with it or not.

Logan Square is only one place in the city where people live and try to communicate but how can people do it without stepping on regulations? What I mean is how does a man wear a shirt five sizes too small without breaking a few threads? It just doesn't fit.

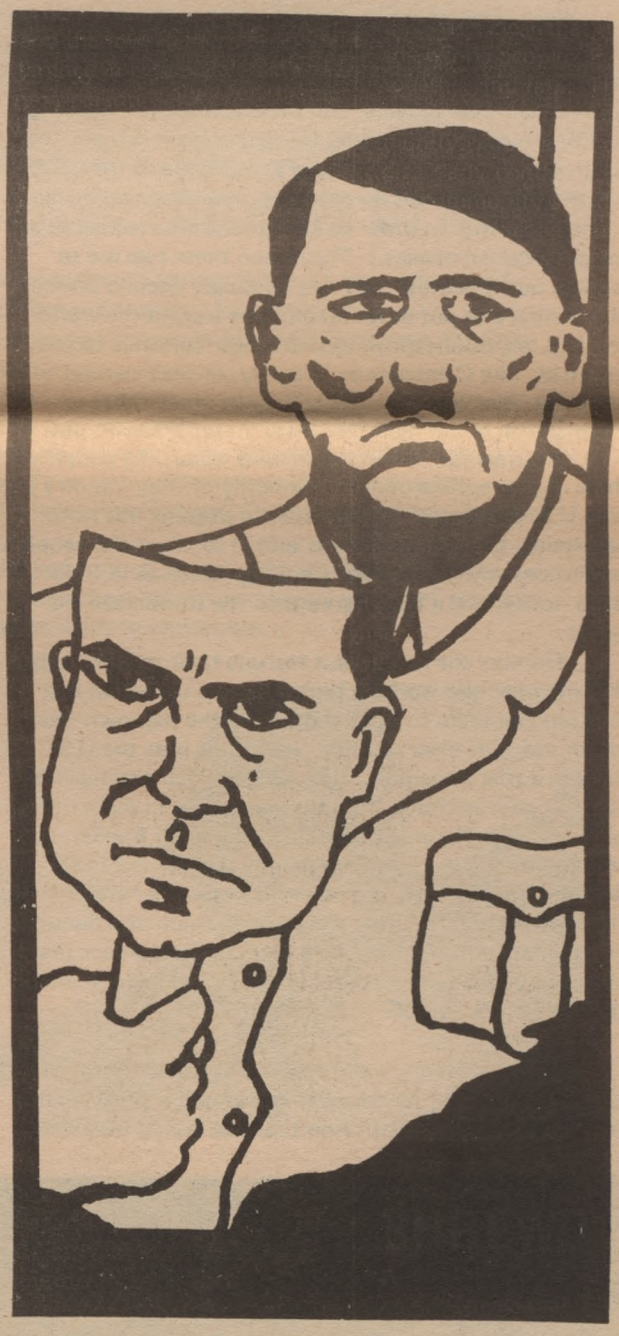
DON'T LET NIXON EAT IN PEACE

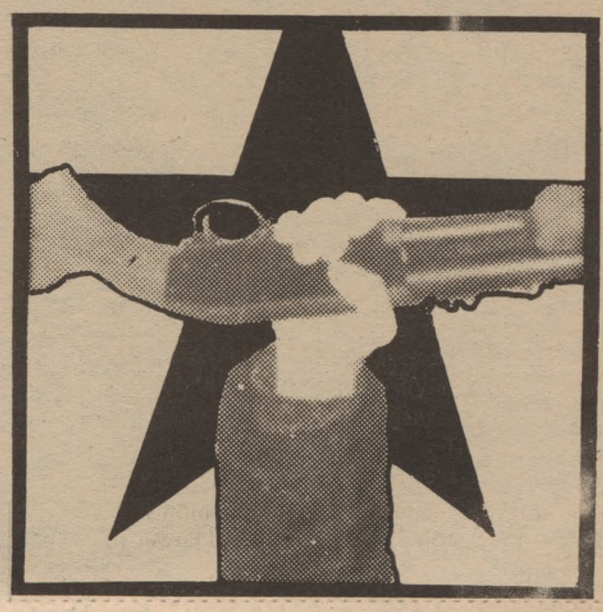
Nixon, Agnew and Mitchell are coming to Chicago to eat dinner. The people who are eating with them are paying $500 a plate to keep them in office - it's insurance money so they can keep the hustle they have going under the present administration.

Nixon, Agnew and Mitchell shouldn't be able to eat a peaceful meal in this city - they shouldn't be able to eat a peaceful meal anywhere in the world.

People are meeting across the street from the Conrad Hilton Hotel (in Grant Park at Gen. Logan statue). 7:00 – November 9th – Tuesday

Nixon, Agnew and Mitchell – END THE WAR NOW!





RESISTANCE IS SPREADING AMONG WHITES

THE 3d PLATOON OF BRAVO COMPANY, 12th CAVALRY, WHO

OUR BROTHERS RE

We've been hearing more and more stories about U.S. G.I. s refusing to fight in the criminal war in Indochina. These actions show the extent of anti-war feeling among our brothers over in Nam; and these refusals are freaking out the ruling class here (the big corporation owners, the politicians who work for the corporations, and the pentagon generals, who will do anything, including wiping out a whole country, in order to keep the profits rolling in to the corporation owners.) The reason these pigs are so freaked out is because they can no longer depend on the U.S. military to put down revolutions around the world and U.S. big businessmen can no longer continue to rob countries, like Cambodia or Uruguay, of their natural resources. (For instance, the U.S. takes three times as much capital out of Latin America, in profits, as it puts in in investments.) When revolutions occur, the people of these countries take over the economy of their country and kick U.S. businesses out. In order to prevent this from happening, the U.S. military is sent in to crush the people's revolutions where ever they spring up - such as in Indochina today, and a few years ago in the Dominican Republic.

The way the ruling class recruits their military is by drafting poor and working brothers from the states and then sending them to fight and die for the pigs own interests in someone elses country. Now, this puts the U.S. G.I. s in a wierd position. He's not very rich and most of us won't gain anything from the war and even more - these same pigs, like Nixon, Rockefeller, Ellsworth Bunker, etc., who are forcing us to make life miserable for the Indochinese people are making our lives miserable here at home. They own the factory that works us to death and doesn't pay us enough to live on. They run the government that taxes us but not them. And then they send us to Vietnam to die for them - but we hate them!

So our brothers in the service have figured this game out and are starting to refuse to be cannon fodder for the millionaires and generals. And they are saying they won't fight against the Vietnamese; our brothers are saying they have more in common with the Vietnamese people than they have with Nixon. And they are starting to bring the war machine to a halt by refusing to fight!

In August of 1969, an infantry company refused to go into combat in Vietnam.. This was the first reported refusal. Since that time hundreds of other brothers have refused combat. This means the U.S. ruling class is losing it's trump card - the U.S. military.

Not only are G.I. s who are in combat refusing to fight, but U.S. POW's are beginning to speak out against the war (as are thousands of vets.) Just recently, four cases (that are described below) of G.I. s doing something to stop the war have occured. We should understand the significance of these actions as a direct attack against the U.S. ruling class and support our brothers in the service any way we can. Right on - Brothers, you're beautiful!

U.S. PRISONER OF WAR RAPS ON THE WAR

The U.S. government has realized the massive anti-war sentement in this country. To justify their murderous activities in Vietnam, the government has tried to brainwash us into believing that our troops are only there to help the U.S. prisoners of war. Well, this has been proven to be a lie and now even POW's are beginning to speak out against the U.S. involvement in Vietnam. The following letter was written by a U.S. prisoner of war:

"To the American people, including all anti-war organizations:"

"On July 1st, the Provisional Revolutionary Government of the Republic of South Vietnam once again showed its true desire to peacefully settle the Vietnam problem. On this day at the 119th session of the Paris Conference, Mme. Nguyen Thi Binh, head delegate of the Provisional Revolutionary Government of the Republic of South Vietnam, put forth the seven-point peace initiative just at the time the Americans and world people were focusing their eyes on the secret documents of the U.S. Defense Department.

"Now, more than ever before, we as American servicemen have seen how we have been deceived and used by our very own government. How do you think we feel? We came to Vietnam ready to give our lives for freedom and democracy in the defense of America. Although we have not been killed, many of us have shed our blood and even more than that we have been locked up in detention camps unable to join our families for 3, 4 and 5 years. And we ask you: For what? Even though we have suffered somewhat, we still consider ourselves lucky for we are not among our brothers who have died in this utterly indefensible war of our government. Mr. Nixon may try to drop the blame on the past administrations for the death of so many of our brothers who have died in this war. But as far as we are concerned, Mr. Nixon is no less guilty than his predecessors.

"We believe the Provisional Revolutionary Government and the Vietnamese people care more for our lives than our own President, Mr. Nixon, who seems to be only worrying about one thing - and that's that he doesn't want to be the first President to lose a war. For if our President would please wake up and face reality he'd realize that this war has already been lost for quite some time. And nothing is going to change history. We feel the Provisional Revolutionary Government of the Republic of South Vietnam's new peace proposal is the last chance for an honorable way for Mr. Nixon to get out of the Vietnam tradgedy.

"We, of course, back this proposal 100%, for we don't want any more Americans or Vietnamese to die in this war, which do

this war, which doesn't benefit anyone except a few men in our government and the big businesses. We want this ugly and disgusting war to end and we want it to end now!

"We know our President is using captured GIs as an issue to prolong his war. But the Provisional Revolutionary Government of the Republic of South Vietnam states in its seven-point peace initiative that all captive military men and civilians, including pilots captured in North Vietnam, will be released at the same time that all U.S. and other foreign forces are being withdrawn from Vietnam. We couldn't ask for a better proposal than that. We don't know if Mr. Nixon will accept this peace proposal for not. But we do know one thing: he is the one who is blocking the door to peace and he is responsible for our brothers who are now dying here in Vietnam.

U.S.S. CONSTELLATION - SAILORS REFUSE TO SAIL

On September 29th, 4 sailors left the U.S.S. Constellation and took sanctuary in the Catholic Christ the Kings church in San Diego, California. Later, they were joined by 5 more sailors from the ship. These 9 brothers refused to sail on the U.S.S. Constellation because it was headed back to Nam.

Jim Mikell of Georgia, one of the sailors, explained, their actions, "We feel we are the real Constellation because we are carrying out the will of the people of the United States." Another of the brothers, Scott Flanagan, said, "Vietnam is one of the most insane and ugly wars in history. I can see a lot of political and economic reasons but no real human reason."

But, of course, the military pigs couldn't let these brothers sit around a church, refusing to fight and getting word out to the people about the criminal nature of the war in Vietnam, so on October 2nd, the pigs forced their way into the church and cracked the 9 resisting sailors. They were handcuffed and put on a plane for the Constellation. Last word was that these brave brothers were in the brig.

Their action was not in vane, though, it set the example for U.S. G.I.'s all over the world.

U.S.S. CORAL SEA - MORE SAILORS REFUSE NAM

On November 12th, the U.S.S. Coral Sea, an attack aircraft carrier, is scheduled to leave Alemeda Naval Air Station, California, to return to Nam. But the crew of the ship doesn't want ot return--so 11 brothers are maintaining a vigil in front of the base. They say that 1,000 of their brothers have signed a petition to congress, demanding that the ship be kept from sailing to Vietnam on November 12th. And these brothers have said, "The ship will not go back to Vietnam. If the petition doesn't work, we have other means."

The brothers say that up to 35 crewmembers won't report back in November. And the brothers have learned from a mistake that the Constellation crew made - they won't say where they'll be hiding on November 12th.

In their statement, the brothers explained their refusal to fight. "The crew of the attack aircraft carrier, U.S.S. Coral Sea, have decided to help stop the war by stopping their ships."

CAVALRY PATROL REFUSES ORDERS IN NAM

On the night of October 9th, a 12 man patrol (3rd platoon of Bravo Company, 1st Cavalry) refused an order to go on night patrol outside Fire Base Pace, near the Cambodian border.

These brothers said they wouldn't go out on "a sensless suicide mission." For the average American G.I. to risk his life or take a Vietnamese life, it's senseless. That's why what they did was, "a matter of common sense."

More and more G.I. s are refusing these kinds of patrols because they realize the criminal nature of the war and no longer want to participate.

HUEY P. NEWTON RETURNS FROM THE PEOPLE'S REPUBLIC OF CHINA

On Friday, October 8th, 1971, Huey P. Newton, Minister of Defense, Elaine Brown, Minister of Information & Comrade Robert Bay, all of the Black Panther Party, returned to the United States after an inspiring visit to the People's Republic of China. Shortly after their arrival at the San Francisco airport, a press conference was held which began with Huey reading the petition of the Black Panther Party to the Chinese People, in behalf of the oppressed peoples of the world. Of course, the United States government controlled newspapers (all the straight papers) refused to print the petition which we are reprinting here.

So let it be heard:

A short time ago, the prisoners at Attica requested the Black Panther Party to negotiate with Nixon, Rockefeller and Oswald for their freedom. The Black Panther Party at this time asks Chairman Mao Tsetung of the People's Republic of China to negotiate with Prison Warden Nixon for the freedom of the oppressed peoples of the world.

We recognize that the criminal activities of trigger-happy Nixon show clearly that he has no respect for peaceful negotiation, when the victim is divided and weak. He not only killed the prisoners at Attica, but he also murdered his exploited workers, the prison guards. Although most of the prisoners at Attica are Black and all the guards are white, Nixon killed regardless of color, because they were all victims. When the oppressed people of the world ask for negotiation, such as the Vietnamese people, Prison Warden Nixon shows again he has no respect for the people nor his agents, the U.S. Military. HE LEAVES NO ALTERNATIVE BUT VIOLENT, ARMED RESISTANCE. He is responsible for the murder of Vietnamese people and the deaths of the U.S. soldiers. Both the Vietnamese People and the U.S. soldiers are victims of the reactionary Nixon regime. This is why we approached Chairman Mao Tsetung, because we know of his peace-and freedom-loving nature. There can be no peace without freedom.

We are asking all the agents of Prison Warden Nixon (whom he despises) to join forces with the victims of the world: The U.S. soldiers to join forces with the victimized Vietnamese People; the guards and the families of the deceased guards at Attica and the guards of the State prisons across the U.S. to join forces with the victimized inmates.

It is clear that Mr. Nixon is trigger-happy and could trigger off World War III. And because we know of his impending visit to the People's Republic of China, we asked the Chinese People to receive us first, so that we might ask the peace-and freedom-loving Chairman Mao Tsetung to be the chief negotiator to Mr. Nixon for the peace and freedom of the oppressed peoples of the world. And this is why we ask for unity of all the victims against the common enemy, the Nixon-Rockefeller regime.

So let it be done
ALL POWER TO THE PEOPLE

The following is part of the press conference with Huey P. Newton upon his return from China:

Q: What do you thing you accomplished?
HUEY: The results will have to be measured in the future. We issued a petition. The impending visit of Richard Nixon will tell the story. Those results you can get from Richard Nixon, the murderer; or else you can do as we did. You can go directly to Mao Tsetung himself, in the People's Republic (of China) and find out the information, if you do not trust Richard Nixon, after the Pentagon Papers. I would advise you to go to the People's Republic of China, free territory, where you don't have that credibility gap, because the government and the people are one.

Q: What did Chou En-Lai have to say to you?
HUEY: Premier Chou En-Lai offered the solidarity of the Chinese people in support of the oppressed people of America. He offered solidarity with the Black Panther Party, and also the political prisoners who are fighting for their freedom inside of prisons, such as San Quentin and Attica.

Q: What kind of reception do you think Nixon will get?
HUEY: The Chinese people are very humane and friendly people. They attempt to understand all ignorance and backwardness. I would suspect and anticipate that Richard Nixon will receive a warm welcome; but that is no indication of what the results of the talks might be. The talks mights be successful or they might fail. It will depend upon the attitude and the kind of language that Richard Nixon will use. Certainly he cannot be trigger-happy, as he was at Attica, because the Chinese people are strong people and their land is very fertile. We know that the ruling circle in this country will only take advantage of victims, such as the prisoners at Attica, and the Vietnamese people, and Black people in this country, as well as poor white people.

Q: Was there any instance of any racism at all?
HUEY: None whatsoever. I might add there are 54 ethnic groups, or national minorities, as they're called in China. We visited the National Minorities Institute, the many schools. They govern their regions. They're all part of one government; yet they are not deprived of their culture, and they're not deprived of controlling their community. We feel that the plan in China is a plan that will advance humanity. I was actually shocked, because our Minister of Information, Elaine Brown, had made a visit before. She had expressed to me the beauty of China. I could not really visualize it. After my visit there, I know for myself, through experience. But, I'm sure I cannot articulate it to you. I invite all of the Americans to go to China. They will welcome you. They only have hatred for the reactionary ruling circle in this country. That's only less than one percent; that is, the big corporations and the Nixon regime, that has its mind on murder, not only in this country, of victims of all kinds, but also murder upon the people of the world.

Q: How do you feel about the start of your third trial on Tuesday? (The state of California is trying to convict Huey of murdering a pig.)
HUEY: When I entered this country, I felt that I was entering prison. I'm willing to struggle because we have revolutionary optimism. I feel that I'm returning now to the front lines, because the Chinese people have liberated their territory. That's already done. All they have to do is hold. But now the United States must be liberated, and I would be a soldier leaving his post, if I were to stay away from home.

Q: Does this trip mean that the Black Panther Party has now become a communist or a Maoist organization?
HUEY: The Black Panther Party is an Intercommunal Party, and we're intercommunalists. That means that we see the world as one large community. With the advancements in technology and the mass media, the whole world has been pulled together. It's like two-thirds of the world is like the oppressed community in Harlem. And it's all been integrated into the backwards politics and the economy of the United States. We view the People's Republic (of China) as liberated territory. We would like for you to take note of that, because it's much different than a nation. We have a job to do and that is to liberate our own community. Of course, our structure, perhaps, will be a little different than the People's Republic, because we adapt to our particular situation. But, there will be the fact of the freedom and also the equality. There's very little difference between the highest wage and the lowest wage (in China). There's very little difference in what one person can afford and what the next person can afford; but there is a difference. They're closing the gap, and they admit this. They visualize the future as a future where they can produce and abundance, where the value of things will be very low...The prices are going down in the People's Republic, not up, as they advance in technology. And the people are diligent in this, because the workers do not have bosses. The workers are the boss and they dictate to the administrators in the factory. They give suggestions, and they have created many innovations. They feel very proud; and their country is mobilized to advance man and create the new man.

We American people should be a part of that, because we know it is the nature of the reactionary force to go backwards. The progressive force, such as the People's Republic of China, is revolutionary; and therefor, it's progressive and going forward. We know history develops in a forward direction. If we don't watch out, we will be lost in history, and the Chinese people will be left alone to create the new man. As for the Black Panther Party, we insist upon being a part of that development. We invite all of our friends, all of the victims, all of you prisoners to be a part of this struggle.

Many of you are not aware: you don't know your friends and you don't know your enemies. Therefore you confuse them. This is also a tactic of the regime of Nixon and Rockefeller. We invite you to try very hard, however, to cut through the brainwashing of the mass media, the T.V. and the soap opera, so that you can save your lives and see that you descendants and your generation will live, not die.

We stand against a third world war. We feel that the Chinese people will be able to negotiate a settlement with their strength, because this country only listens to strength. This was proved at Attica where the guards, the prison guards, were murdered, as well as prisoners, because both were exploited. So we call attention to this, your attention to this. We would like to band together with the prison guards, as well as the prisoners. We would also like to point out to the soldiers who are in Viet Nam that the president and the corporate interest cares nothing about them, that while they kill the Vietnamese people, only we soldiers and the victims die. Nixon is not dying, of course; neither is Rockefeller. So the Vietnamese people and the soldiers have a common interest, that is to fight against the person who sends both of them to their deaths. This is strictly logical. If there is any reason left in this country, we urge you to listen to reason, then nothing is left but for the people of the world to save their lives, through defensive, armed violence and resistance.

Q: Mr. Newton, how did Premier Chou En-Lai express solidarity with the Panther Pary?
HUEY: There's a phrase in the Black Panther Party that a picture is worth a thousand words; and, of course, action is supreme. The action will be the results after Nixon visits. Of course, we have the picture. You can tell by the picture that we were very well received.

ALL POWER TO THE PEOPLE!

HUEY P. NEWTON WITH PREMIER CHOU EN-LAI

A FIGHT FOR SURVIVAL

You've just been laid off from your $2.50 an hour job. It never supported you and your family anyway. Now the only place to go is the welfare office. You are told to arrive at 7:45 a.m. if you want to be interviewed that day. You stand in a line of 75 people. Finally, 6 hours later, a caseworker takes your application and the next day you have $75 to buy a month's worth of groceries. Your rent is 3 weeks overdue and the gas and lights are about to be shut off, but it doesn't make any difference at welfare. All you and your family has to live on is a thin supply of food.

You work 40 hours a week. Unfortunately it's not enough to pay the rent and buy food for your 8 children and wife. You receive $140 a month from welfare to try to meet your expenses plus you get the much needed medical coverage. Last Friday you read that Ogilvie has decided to cut your check by 60% and will no longer pay your medical bills. Your youngest child just broke his leg.

You've been on welfare for two years because you are sick. You have diabetes and take insulin 7 days a week to keep alive. Once when you couldn't scrape the money together to buy your dosage, you went into convulsions and ended up in the hospital. That left you $400 in debt to the doctor. Last week Ogilvie gave "the word" on your medical assistance and you no longer can get insulin paid for. When you have to go to the doctor, it will no longer be paid for. You finally realize that Gov. Ogilvie has sentenced you to death.

Each caseworker has 250 cases of people that have 24 hour a day problems. Checks are lost, people are evicted, children need clothes to go to school, mothers are pregnant, wives are beaten up, apartments are burned out, refrigerators stop working, the heat is shut off in January. Gov. Ogilvie, with a boost from Nixon, refuses to listen to these real and urgent needs. There are no more funds to pay for emergency clothes or rent. There are no more funds to pay for dental care, doctor's visits or prescriptions. There are no more funds to pay to unemployed workers. But then again there are no jobs either. Ogilvie has decided to turn 75,000 people in Chicago out into the streets. He has finally brought the genocide of these people into the open. He has finally decreed who shall live and die.

ON WELFARE

In a vicious attack on the poor people of Illinois Gov. Ogilvie has ordered that all general assistance welfare checks be cut by 60%. In Cook County this means that 54,000 people will have their only source of income slashed from a bare poverty existence to only a few dollars a month. Further, Ogilvie has ordered the Medicaid "green cards" of these 54,000 people revoked, leaving them completely without medical care!

The average person on general assistance in Chicago gets about $123.53 a month to live on. Under the cut the average monthly check will be about $49. But, revoking the "green cards" which entitled welfare recipients to free medical care, now leaves people whose very lives depend on continuing medical care, cut off without a cent.

At this point, there is a temporary court order to stop the cuts from going into effect. But in fact, most of the cut checks have already been sent out. Caseworkers are not allowed to issue new medical cards and people who already have medical cards are finding them almost useless. Hospitals and private doctors are already refusing to treat welfare recipients for fear they will not be paid. Hospitals in the inner city are threatened with having to close down all together. For example, Garfield Park and Bethany Bretheran hospitals receive 70% of their income in payments from public aid.

62% of the welfare recipients in Cook County are children. The mother of 5 children (3 sons in high school) knows that this cut means her sons will have to drop out of school. She won't even be able to give them car fare for school, much less buy clothers for them. They haven't been able to find a part-time job, so they don't have any hope for full time employment. Her question is what will happen to her sons? Ogilvie understands that it is very likely they, and thousands like them, will have to become 'criminals' to survive. His solution is to enlarge the prisons.

Democratic politicians are loudly attacking Republicans, yet when asked what their plan for aiding the poor is they can only shrug their sholders. Why? Because Democratic and Republicans alike support the capitalist economic system which has thrown millions of people out of work and on to the welfare roles. Today 7% of all Americans are on welfare and 6% are unemployed. Now, after years of lay-offs the system finds itself unable (or unwilling) to pay the welfare bills which it created itself.

All this from a government that gives away billions of dollars a year to big businesses in the form of subsidies and tax write-offs! When you get a little short of bread and can't get a job, the government says you're a deadbeat and a welfare chisler. When Lockheed Aircraft Corporation cheats the government out of millions on defense contracts and turns out airplanes that fall apart in the air and still goes bankrupt, all it has to do is go to Congress and ask for a multimillion dollar handout - and they get it.

One of the biggest rip-offs going, is the way private companies make millions off of administering the welfare system itself. Take H. Ross Perot, for example. Perot is a Texas billionaire who made a big name for himself a few years ago by chartering a jet plane and trying to fly to North Vietnam with Christmas dinners for American prisoners of war. In all the publicity about him, no one ever bothered to mention how he made his bread. It seems he founded a company called Electronic Data Systems (EDS). EDS and its computers, operate the Medicaid system (the green cards) in eleven states at a huge profit.

Chicago's version of Electronic Data Systems is Educational Planning Associates (EPA). Good old Ogilvie hired EPA to administer tests to public aid recipients to decide which ones would be employable (if there were any jobs). The state agreed to pay EPA $35 for each test and each test took only 20 minutes and asked such questions as, "Have you ever ridden on a bus?" and "Have you ever been to the Loop?"

It now turns out that the chairman of the board of EPA is Benjamin C. Willis, the retired racist who used to be Superintendent of the Chicago School System. And the rest of the officers of the company are all big men in the Republican party. Willis also is the head of the Ft. Lauderdale, Florida, school system for $45,000 a year and he collects a $16,000 a year pension from the Chicago school system.

The hospitals and doctors jump in for their share of the people's money. In 1968, one doctor in California collected $117,000 from Medicaid for services alledgedly given to the poor. Illinois public aid officials report that Illinois hospitals bill private patients an average of $88 a day for hospital care, but bill the state an average of $99 a day for welfare patients. To take another example, the Cook County Public Aid department will spend $14 million this year on "administrative expenses" for the general assistance program alone.

Who says you can't get rich off welfare! Yes, there is such a thing as a welfare Cadillac, but they're all being driven by criminals like Ogilvie, Perot, and Willis. And to cover up for their crimes, they try to push the line that the working people are being taxed to death to pay "shiftless deadbeats, too lazy to work." Actually poor and working people are being taxed to death to give Lockheed, Ogilvie and Willis a free ride. They are the real welfare chiselers!

Dealing With Male Chauvinism

The Young Lords Party in New York is dedicated to making the revolution both here in the U.S. and in Puerto Rico. We have great respect for them and have learned a lot from their struggles. There is a book out now called, "Palante - The Young Lords Party" in which a brother from the party, Richie Perez, raps about dealing with male-chauvinism (men feeling superior to women). We are printing it because he makes some things pretty clear and even though he speaks about the problem in the Latin community, it's certainly not just a problem in the Latin community. It's something we all have to work to change. Dig what Richie runs down:

Male chauvinism is a problem that every man has by virtue of being raised in this society. In our community 'machismo' is something that is a particular problem. It's one of the trademarks of Latin culture. It is that exaggerated sense of manhood that constantly must be proven in a number of different ways.

Because of the frustrations that Puerto Rican men have gone through under the capitalist system, a lot of them have turned their anger inward upon themselves and the women in their lives. A man says, "Well, I can't control anything else in my life, but in my home I'm gonna be the king. And that means my wife does everything I say, my daughters do everything I say, my girlfriend does everything I say—and nobody dares question me." We put women into the roles of wife, mother, girlfriend, sexual partner, housekeeper, all-around clean-up person—really preventing the sisters from developing because we put them in these roles and will not let them out.

'Machismo' also can be the thing of brothers in the street saying, "I'm a man—I'll kill anyone that messes with me, except a policeman." Brothers are ready to fight, ready to kill each other, over slights on each other's manhood. But when it comes to our real oppressors—police, or greedy businessmen, or landlords, or politicians—no one is ever very ready to fight them.

We're all frustrated and we all have aggressions inside us, but what we've got to do is focus these aggressions on the people who have caused them. Our sisters are victims of the same oppression. If we're gonna have a revolutionary army, our sisters must develop and grow, just as we have to. And if we come on with a thing that all the leaders have to be men and all the responsibility and dangerous jobs are gonna be given over to men, then we're not going to make the revolution.

When people come in off the street they have to deal with their own self-image and how they relate to sisters before they can deal with these concepts. They find it very hard to change their heads. One of the things we've found is that brothers can't change their heads by themselves.

We've talked about all kinds of things, like the fact that brothers don't know how to talk about sister. Words like 'broad' and 'chick' are negative terms—again, they take away the humanness of the people that you're applying them to, and make them into objects. Of course, no brother would like to be referred to as, 'That's my stud', or something like that. Instead of saying 'manpower,' we're trying now to use the word 'peoplepower,' because we're not only talking about men—we're talking about brothers and sisters.

"Words do show an attitude, and if you want to change that attitude, you have to begin by changing the words that you're using to describe people.

"One of the greatest problems in this country is how dehumanized everything is. When the brothers deny the humanity of the sisters, they also deny their own humanity.

"We live in a system where your position in life is determined by how much you own directly, or how much you control directly, or how many people you can manipulate or control. Those people who own a lot, who possess a lot of material things, and who can control other people on their jobs and within their families, are said to be successful. Madison Avenue tells our people, "You've got to have this, this and this. ...If you do, you're a groovy person, you're a swinger. If you have a new car, you're gonna make it with a lot of girls. If you use a certain perfume, you're gonna be able to entice a lot of men."

"Our people strive to be successful in those terms, but every time they try to move forward toward that apple that's being held in front of them, they're blocked. And you know, they don't understand that it's all a sham, that it's only Madison Avenue—plastic America selling its products to people by telling them 'You're not good as a human being unless you possess all of these things." So, our people work hard and, like, they'll never make it—because the system isn't constructed for that kind of mobility.

"A sense of self-destruction begins to build up—people striking out at each other because they can't put their finger exactly on what's wrong, but they know that there's a lot of things that they're supposed to have and they don't have them.

"This is one of the things that we're trying to educate people about, that all of this anger and frustration that we feel, like the sense that we're nothing, have no power over our lives, are not successes in the sense that America defines success-it's not because we're not worth anything, which is the way a lot of people begin to feel.

"We're trying to tell our people that this is not happening to us because of us—this is happeining because it's all planned, it's been done consciously. Those Madison Avenue people are very smart, man, and they study psychology, and they know how to make people want something. This system is constructed in such a way that we are supposed to strive as much as we can because the system benefits from us working as hard as we can even though they know that they're not gonna let us make it.

From this point on we're gonna be having a joint caucus (meeting) of brothers and sisters. We are all gonna sit down together and begin to talk about how to relate to each other inside the struggle, so that we don't have to stop our revolution to deal with this problem. See, one of the things that we understand is that because we're oppressed people we have a lot of neuroses (craziness) to deal with. It's no use making revolution if after we make it and take state power we're as messed-up as the people we replace. We not only have to change the political structure of this country, we've also got to change everything else. Revolution means change from the top to the bottom, and that includes the way we deal with each other as human beings.

PRISON CONDITIONS AT JOLIET-STATEVILLE

ATTICA IS EVERYWHERE

The prisoners at Attica brought to the attention of the people of the world, the inhuman conditions that all men and women in prisons are fighting to survive under. The statement, "My name is Attica - I am everyone", that was made by a brother during the revolt there, is a truth that remains ringing in our ears. Prison conditions in Illinois (as in every other state) are just as intolerable as the conditions that led to the Attica revolt. But the state of Illinois tries to cleverly cover up it's fascist prison system with a slick looking, smooth talking "public relations man" who fills the job of head of the Illinois Department of Corrections, Peter Bensinger. His job is to lie - and he's real good at it - he smiles as he is lying.

The Illinois prison system is full of hard line fascists who say that prisoners are the scum of the earth and should be treated that way. Bensinger, who is called a "liberal reformist", knows that you shouldn't say things like that - so he's liberal with the fascists (he lets them continue to brutalize the prisoners) - but he reforms what they say (he talks to the newspapers instead of them and comes on like a good guy). He doesn't care about the prisoners, but he does want to convince the people that everything is o.k. in the prisons.

Even though Bensinger hasn't changed the system, the guards are afraid that soon (because the truth is getting out to the people) they won't be able to continue to brutalize the inmates whenever they feel like it. (You gotta dig the low mentality of most of the prison guards - a lot of them are "Klan" members and have KKK tatooed on their arms.) The guards constantly provoke fights between black and white prisoners and also try to provoke inmates to swing at them - then they go after the prisoners with full force.

On June 25th, the guards in Statesville started a fight during a baseball game that created a "crisis" so they could vamp on the brothers. As a result, all of Statesville (1800 brothers) was put on deadlock. This means that the prisoners don't come out of their cells at all. When the newspapers picked up the story, the prison pigs had to shift their tactics because a deadlock is cruel and unusual punishment, punishment without trial or hearing, illegal under the Illinois Penal Code and unconstitutional. So they let most of the brothers out of deadlock. However, they kept 200 brothers on deadlock in B house. In B house the brothers have not been given a change of clothes since June 25th and are freezing because many broken windows have never been repaired.

On October 18th, at the Old Joliet prison, all 700 inmates were put on deadlock. On the Thursday before, at Statesville, a 27 year old brother, Willie Washington, had been found "hanging in his cell", so they said. When the news reached some brothers in Old Joliet who didn't believe he killed himself, trouble started to brew. One brother, Herbert Stevens, got out of his cell and armed himself with a pipe and started shouting. All the other inmates joined in and threw the place up for grabs. About 20 "brave" guards went in and "subdued" Herbert. Then, with big plywood shields in front of them, they went from cell to cell and threw tear gas canisters at the brothers in the cells. When they got to Herbert's cell they lobbed about ten canisters into the cell but he didn't quiet down. When they moved the shield aside to see what was going on, Herbert was there laughing at them - with a gas mask on.

Herbert Stevens was in the "special program" at Old Joliet. The special program has 3 steps. Stage 1 is a stripped cell with only a mattress and a blanket, the prisoner has no clothes. There are 90 brothers in stage 1 now. Stage 2 is a little better, the prisoner gets clothes. There are 25 brothers in stage 2. There is nobody in stage 3. When you're put through the special program you have to start in stage 1 and graduate through 2 and 3. If you do something the officers don't like (for instance, if you complain because you don't get any food, the guards often don't feed the prisoners) or if you protest being beaten (it's part of the day to day routine to beat inmates) you get put back in stage 1.

The resistance of the brothers is strong and growing stronger. The prison officials spend a lot of time thinking up sophisticated ways to deal with prisoners psychologically. For instance, they have ordered rows of cells covered with chicken wire. This created the "psychological" effect on prisoners that they are being locked up like animals, (it also smacks of reality). It was during the transfer of some prisoners to these "animal cages" that 3 black guards took a stand against the prison officials. The guards, Louis Rogan, Richard Welch and Howard Pernell, were in the gallery (a row of cells) when an order came to lock up all the inmates in their cells and an officer came in with helmets, clubs, mace and shields - full riot gear. When these 3 guards asked what was going on they were told certain prisoners were going to be moved, 17 in all. Sgt. Jenkins, (who calls himself ram-rod) was ready to start moving the prisoners by shooting them with the water hose first. The guards went to talk to the prisoners and the prisoners told them they were locked up unjustly in the first place and they were going to get beaten up - so they refused to be moved. The captain yelled to the guards to get off the gallery - they were going to move the prisoners. The guards said, they wouldn't leave, "you have to beat them, you're going to have to beat us too." Warden Scott called the guards out ot talk. It was a trick to get them out and they were locked out of the gallery. Later that night, 5 prisoners were moved - 8 guards on one prisoner - and the prisoners, of course, were severely beaten. All this time the two-faced warden was telling the 3 sympathetic guards that he agreed with them, that if you have to move a man with force and brutality, you just leave him there. The guards, Pernell, Welch and Rogan, have been fired. The pigs have become increasingly brutal but they are still only able to move a few prisoners a day to the chicken wired cells. One brother was shot in the head with a stun-gun from 3 feet away. Ten members of the Black P. Stone Nation have sent out a letter swearing they will die before they are moved.

Another of the pigs horrors is the "detention hospital" where goon squads of lackey white inmates beat on black brothers. These fools don't realize that the black brothers are fighting for liberation of all prisoners - and that means white prisoners, too.

The cruelty of the guards is almost unbelievable. There is a very old man in Statesville, doing a life sentence. This old man can hardly walk or move. One day the guards told him that he'd be going home the next day. The old man stayed up the whole night getting his stuff together and the next day he got in the going home line. The pigs laughed at him and took him back to his cell. The next week they did the same thing. The old man went berserk - he literally lost his mind.

Peter Bensinger and the Department of Corrections are playing dangerously sick games with people's lives. The brothers at Statesville and Joliet are being systematically stripped of their human rights - including the right to live. But they will continue to resist the fascist prison system until it is torn down.

A FRIEND IN THE U.N.

On Monday, October 25, in the United Nations chambers in New York City, the People's Republic of China (Red China) was voted into the U.N. and Nationalist China (Taiwan/or Formosa) was voted out by the overwhelming margain of 76 to 35. The admission of the PRC, along with the expulsion of Taiwan, is a trouncing defeat for Nixon's "2 China" policy. It is a victory for the Chinese people and all progressive and revolutionary people of the world.

The "2 China" policy pursued by Nixon held that Taiwan and the People's Republic of China were both independent sovereign countries (both equal). In fact, as the PRC has always stated, and the U.N. agreed, Taiwan is nothing but a colony of the U.S. The U.S. government supported Taiwan to the tune of $4 billion in economic and military aid, which includes 3 air bases that can deliver nuclear weapons, 9,000 U.S. troops and the 7th fleet. Taiwan, a small island off the coast of mainland China, is governed by the fascist Chiang Kai shek, who claims he's the legitimate leader of the 750 million Chinese people. In fact, the only government of the Chinese people is the People's government of mainland China which is headed by Mao Tse tung. The vote in the U.N. only confirmed the reality that there is only one China - only one government - the People's Republic of China.

When you look at the significance of what happened on October 25th, you have to look beyond just the actual vote. The vote was merely an indication of the growing power of the revolutionary people in the world today and the declining power of the imperialists; just as Nixon's visit to China is an indication of the new world situation. Nixon must change the whole U.S. foreign policy and go to China because the U.S. can't defeat China in a world-wide political struggle. People's Power is definitely on the rise.

The people of the U.S. have nothing to fear from China - it is only the ruling class (the monopoly corporations) who should be afraid; and they are. The response of the U.S. government officials shows their fear of people's power. They are saying that the cheers and rejoicing that occured after the PRC was brought into the U.N. was "rowdy" and "boisterous" and not fitting for the solemn occasion. (Solemn for them - happy for us!) To show how isolated he is from world public opinion, Nixon was "shocked" by the outcome of the vote in which most of the nations of the world participated. What a dream world he lives in.

West Germany, one of the U.S.'s strongest allies, was not "shocked" by the U.N. vote. Their foreign ministry declared about the vote, "Whoever wants an international easing of tensions cannot ignore China. The family of nations cannot successfully work toward cooperation when a country of this magnitude remains excluded." Another of the U.S.'s European allies, France, said the vote, " was an act of good sense and realism, both in fact and in law."

Of course, the Chinese summed it up best when Chi Peng-fu, acting foreign minister of the People's Republic of China explained the situation. "It (the vote) is the bankruptcy of the policy long pursued by U.S. imperialism in obstructing the restoration of the legitimate rights of our country in the United Nations and the U.S. imperialists scheme of attempting to create 2 Chinas in the U.N." The U.S. governments disbelief that the majority of the people of the world respect the PRC as representing the Chinese people, is clearly an example of how little respect or concern Nixon and his cronies have for people's opinions.

The hypocrisy of the U. S. ruling class became clear when, because they had lost a political battle in the United Nations, all of a sudden the United Nations became a "communist sounding board." And now the U.S. is going to pick up its marbles and go home because they can't win every time. Since the PRC is now in - voted in by the majority of the nations in the world - the U.S. is talking about cutting back on funds to the U.N. And any nation that voted for the expulsion of Taiwan can look for their foreign aid to be cut, too. The U.S. government certainly believes in "democracy", "freedom of choice", and "world cooperation" - just as long as you vote the way the U.S. government does; just so you choose the same fascist friends as the U.S. government and just so long as you cooperate with the U.S. government to help it get its own selfish way.

When the U.S. used the U.N. as a way to invade Korea - in the name of an international police action - no U.S. Senator complained about it. When the U.S. used the U.N. programs as a cover for CIA operations, we didn't hear Agnew oinking about the U.N. No, it's only when Nixon can no longer control the countries of the world, that he decides maybe the U.N. isn't worth all the money the U.S. government puts into it.

But what the U.S. government doesn't understand is that there is nothing they can do to stop the people of the world from striving for their freedom. Rising Up Angry is part of that movement of people, so we wholeheartedly welcome the People's Republic of China into the United Nations and to the United States. We hope that the American people will listen carefully to what the Chinese say, because we have a lot to learn from them about how to build a new and better society.

Congratulations Comrades!

RAP SESSIONS

Rising Up Angry must have daily contact with the people of Chicago if we are to continue to develop programs that meet the needs of people and develop the clear political direction that will result in All Power to the People! Members of Rising Up Angry will go any place to talk with brothers and sisters about the revolution, what's happening in schools, neighborhoods and shops and what people can do to advance the revolution. We will come to classes, churches, factories, playgrounds, parks, schoolyards, peoples' houses or street corners, to talk with any number of people. To arrange a rap session, call Rising Up Angry 472-1791.

The people need your help. All of our programs have a place for you. If your mornings are free come help out on the Breakfast Program. If your afternoons are free you can come into the office and meet someone to sell papers with. If your evenings are free you can work at the Clinic or on the Legal Program . . . You can work on the Sister's Program anytime. If you have any money to spare it will be used to keep all the programs going. Please call us and help serve the people.
